Download iService Technician App
for 2.0 Websites

7. Install the application

8. Open the application and approve the permissions when prompted

9. You should now successfully be able to log in to the application

The image shows a mobile application interface for a "Dealer Login". The screen has a light blue background. At the top, there is a black status bar with the time "9:11", signal strength, and battery level "77%". Below the status bar, the login form is centered. It has a white background with a subtle shadow. The form title is "Dealer Login" in bold black text. Below the title is the label "Account Code" in a smaller font. There are three input fields, each with a small icon on the left: a person icon for the first field, a person icon for the second field labeled "Username", and a lock icon for the third field labeled "Password". Below these fields is a purple "Login" button. At the bottom of the screen is a black navigation bar with three white icons: a hamburger menu, a home circle, and a back arrow.
